USSR/Metallurgy - Welding, Safety Equipment

"Rational Ventilation of Stationary Working Places for Electric Welding," G. A. Iofinov,
Ye. M. El'terman, Cand. Tech. Sci

Avtogen Delo, No 12, pp 18, 19

Assuming that conventional exhaust hoods do not satisfy conditions of electric welding operations, since they do not divert flow of heated contaminated air from vertical direction and remove air only after it passes through welder's breathing zone, authors suggest ventilation system design in form of swinging double-sided panel. Drawing is given and performance discussed.

"Cooling Flake-Sensitive Steel after Hot Mechanical Working," S. A. Iofinov, Izv., Gipromet, 4 pp

"Stal" No 3

National and foreign studies on regulation of cooling of flake-sensitive steel after rolling or forging show that it is practical to combine heating and cooling for nonheating pits. It is also to be recommended for nonheating pits, as well as for tunnel-shaped, pit or chamber furnaces, thermal processing of metals in these types of furnaces with strict control over the process will prevent formation of flakes.

TITLE: Manufacture of thin-walled nichrome tubes. Class 7, No. 182661

SOURCE: Izobreteniya, promyshlennyye obraztsy, tovarnyye znaki, no. 12, 1966, 19

TOPIC TAGS: nichrome, nickel alloy, chromium containing alloy, ~~metal~~ tube, ~~manufacture~~, thin wall tube

ABSTRACT: This Author Certificate introduces a method for manufacturing thin-walled nichrome (Ni-Cr alloy) tubes which includes drawing and process annealings in a vacuum. To obtain tubes with a wall thickness of about 0.01 mm and tolerances within 0.002-0.003 mm and to increase the yield, the final drawing passes are done on an aluminum mandrel which is then dissolved in an alkali solution. [AZ]

TOPIS, YE. [A.]

Fotograf Icheskaya Obrabotka
Tsvetnykh Kinof il 1 Nov. (Photographic Development of Motion Picture Films)
Moskva, Goskinoizdat, 1950.

151 P. Illus., Diagrs., Tables.

An attempt to theorize experiences of collective workers in developing colored films. Author explains basic problems of photographic developing of three-coat films and emphasizes in preface that his book could be used as a manual for film operators and students of the 'VGIK'. Film studios and laboratories, etc.

IOFIS, Ye.A.

TREASURE ISLAND BIBLIOGRAPHICAL REPORT

AID 332 - I

BOOK

Author: IOPIS, YE. A.

Full Title: PRACTICAL MANUAL ON PHOTOGRAPHY

Transliterated Title: Prakticheskoye posobiye po fotografii

Publishing Data

Originating Agency: None

Publishing House: State Publishing House "Iskusstvo"

Date: 1953 No. pp.: 248 No. of copies: 100,000
and 30 photo plates

Editorial Staff

Editor: None

Editor-in-Chief: None

Tech. Ed.: None

Appraiser: None

Text Data

Coverage: This book brings brief information on photographic topics, such as: types of cameras, objectives and lenses, different kinds of light-sensitive materials for negatives and positives, necessary information as to methods of exposure, proper use of light meters, aperture, and lastly laboratory processings of photographic material. The book is for amateur photographers, who already have some knowledge on photography but want to improve their work.

1/2

Prakticheskoye posobiye po fotografii

AID 332 - I

It is written in a popular way and does not contain anything of special interest. Charts, tables, and 30 full page photos.

TABLE OF CONTENTS

	PAGE
Ch. I Photographic Objectives and Cameras	5
Ch. II Light Sensitive Photo Materials	33
Ch. III Photo Exposure	48
Ch. IV Laboratory Treatment of Photographic Materials	100
Ch. V The Improvement of Photographic Reproduction	174
Ch. VI Color Photography	194

Purpose: For wide circles of photographers having already elementary information on photography.

Facilities: None

No. of Russian and Slavic References: None

Available: A.I.D., Library of Congress.
